

Making Grant Road Pedestrian-Friendly

The community input has stressed the importance of creating a safer pedestrian environment for those walking along and crossing Grant Road. Continuous sidewalks, frequent pedestrian crossing opportunities, PELICAN crossings, TOUCAN crossings, crossings near bus stops and schools, and safe access to neighborhoods and businesses were all supported by the public and are part of the Grant Road Improvement Plan.

- **Continuous 8-foot sidewalks with 12-foot landscaped buffers**

- **Bicycle amenities at bus stops**

- **Landscaped medians & pedestrian areas**
- **Pedestrian crossings at 12 signalized intersections**

- **Signalized PELICAN crossings at 20 locations**

- **Signalized TOUCAN crossings at 4 locations**

- **Slow-speed, channelized right-turn lanes with pedestrian speed tables**

- **Pedestrian refuge islands in major intersections**
